PROFESSIONAL SUMMARY

Detail-oriented, tech-savvy Administrative Support professional with over 2.5 years of experience bridging administrative operations and technical/systems coordination across BPO and manufacturing environments. Holds an MCA, providing a strong technical foundation and comfort navigating diverse software platforms. Experienced in managing documentation and technical logs, maintaining equipment and licensing records, handling phone and email correspondence with internal teams and external vendors, and coordinating between operational and quality teams to resolve issues. Highly organized, able to prioritize and work independently, with proven administrative accuracy and a proactive, solutions-focused mindset.

WORK EXPERIENCE

May 2023 – February 2024

Executive, Operations — Teleperformance, India

- Provided administrative and clerical support to senior management, including document preparation, filing, and record maintenance.
- Prepared and distributed daily, weekly, and monthly reports for management, ensuring timely and accurate information flow.
- Coordinated with operations and quality teams to schedule reviews, organize meetings, and follow up on outstanding action items — serving as a communication bridge between departments.
- Streamlined recurring administrative and reporting tasks using Excel formulas and macros, reducing manual effort by approximately 30%.

October 2021 – April 2023

Process Executive — Tata Electronics Pvt Ltd, India

- Maintained accurate production and operational records in a manufacturing environment, ensuring 100% data integrity across administrative and technical files.
- Prepared reports, documents, and presentations for stakeholders, summarizing key operational and quality information.
- Coordinated with multiple departments and external contacts to collect information, verify records, and prepare consolidated summaries — including equipment and process documentation.
- Handled day-to-day correspondence and communicated technical and operational information clearly to non-technical stakeholders.

CERTIFICATIONS

- Google Analytics Certification — 2025
- Data Analytics Internship — 2024
- Deep Learning and Generative AI Internship — 2024
